SERVALL POULTRY LITTER

Manufactured by

Godchaux Sugars, Inc., New Orleans, La.

1. SERVALL Poultry Litter was used exclusively under the 6000 birds at the Live Bird Exhibit at the World's Poultry Congress.
2. The Poultryman's objection to the dusty litter has been overcome through a process of manufacturing eliminating all dust in SERVALL.
3. SERVALL after use in poultry houses has a great value as a garden manure, and is worth more than its original cost.
4. SERVALL is dried at an initial temperature of 1800 Fahrenheit, which makes it practically a sterilized product. Sanitation is important to the successful poultryman.
5. If your dealer does not have SERVALL ask us for the name of nearest Distributor.

The National Poultry Club promotes all breeds and varieties of poultry and offers beautiful ribbons and other specials at all shows and fairs throughout the U. S. and Canada, for members' competition.

The National Poultry Club has a Four-Year plan for Juniors whereby all first-year members under 21 years of age receive 15 free hatching eggs in their favorite breed.

The National Poultry Club has affiliated with it, more than 200 separate poultry breed-organizations, and features an official monthly magazine giving the news of the N.P.C. and all breed-clubs, known as the National Poultry Journal, which is sent free to all members.

The National Poultry Club features an Annual Year-Book and Directory in which all members are listed under each breed and variety of poultry they keep. The value of this listing alone is worth many times the cost of N.P.C. membership.

Lice, Mites and Disease Germs Can't Stand Carbola

It pays to paint and disinfect with Carbola. It keeps chicks and hens healthy, makes them grow faster, and increases egg production.

Just mix Carbola with water and you have a liquid disinfectant *that dries pure white* and will not flake or peel off. Apply Carbola with brush or spray pump. Put it on walls, ceilings, roosts and dripping boards. Get it into cracks and crevices. Result—more light, thorough sanitation, healthy fowls, more eggs—and no lice or mites.

Carbola in dry powder form—just as it comes in the package—has no superior as a louse powder. Dust it right on the fowls and in the nests. *The lice will go.* Dust Carbola on the floor. It will keep the litter sweet, sanitary and free from germs.

Leading agricultural colleges, experiment stations and the largest hatcheries use and recommend Carbola. Try a package under our guarantee of satisfaction, or money back.

Your hardware, feed, seed, poultry supply or drug dealer has Carbola or can get it for you. If not, order direct.
